

Portweiterleitung mit einem *Cisco EPC 3928*

The screenshot displays the Cisco EPC3928 web interface. The top navigation bar includes 'Setup', 'Wireless', 'Security', 'Access Restrictions', 'Applications & Gaming' (highlighted), 'Administration', 'Status', 'Storage & Sharing', and 'Log OFF'. Below this, the 'Port Range Forwarding' sub-menu is selected. The main content area shows a table for configuring port forwarding rules. The table has columns for 'External' (Start Port, End Port, IP Address) and 'Internal' (Start Port, End Port), along with 'Protocol' and 'Enable' checkboxes. The table is currently empty, showing only the header and a few rows of default values (0.0.0.0, 0, to, 0, TCP, and unchecked checkboxes).
